"We're here for you"

Vol. 4 Issue 12

CITY HALL

TRICK OR TREAT

The City of Dyersburg gave out Trick or Treat safety bags filled with goodies, glow bracelets, and popcorn to children on October 30th. The children also got to visit with Sparky (the fire dog) and McGruff (the police dog). We want to thank everyone for all their help in making this event a success, and look forward to next year!

MAYOR'S OFFICE

Wow, it's hard to believe that 2009 is almost over with. I want to say thank you to all of the city employees and aldermen for your dedication and commitment this year. There have been numerous accomplishments and completed projects this year and each of you has played a role in this. Some of these include:

- Utility line extension along Millsfield Highway completed
- Completion of "Expect Building # 2"
- Downtown Enhancement Grant (\$884,000)
- Landfill revenue increase of \$275,000
- Property Maintenance Codes updated
- Dyersburg Police Department grants (\$568,000)
- Improvements at the Dyersburg Municipal Golf Course
- THDA grants received (\$661,500)
- Adoption of IBC and Fire Code Exemption status maintained
- City of Dyersburg awarded 2009 Achievement Award of Excellence from TML
- Bruce Recreation Center awarded Cultural Diversity Award from NLC
- City of Dyersburg financial rating improved to A+
- Cost savings in many departments due to operational changes adopted by the City of Dyersburg
- Many culvert, ditch, sidewalk and street projects completed by the Street Department
- Weekly curb side pickups
- Many gas, water and sewer projects completed
- Dramatic reduction in workers comp claims and dollars paid out (\$962 in 2009 vs \$154,098 in 2008)

Thank you for a great year, I appreciate each and every one of you. I hope that you and your families have a very Merry Christmas !

Mayor Holden

As we enter our 4th year of publication, we'd like to thank each and everyone of you who read the Dyersburg City News. We have had so many compliments over the years and are so grateful to you. It is our intention to promote City of Dyersburg employees and the important work they do as well as the City of Dyersburg. We believe the City of Dyersburg is a good place to work, live and raise our families. If you don't live here, we believe Dyersburg is a good place to visit.

A special thank you to all of you who contribute to our newsletter, whether it is department news, community news or family news. Without you, the newsletter would not be possible. You are important to us and we appreciate you all.

The Christmas holiday reminds us just how fortunate we truly are to be an American, to know we are loved, and to be part of a community that cares.

May you have a blessed Christmas day surrounded by family and friends.

Please keep our troops in your heart and remember them in prayer.

God Bless you all and God Bless America.

Merry Christmas, Tiffany and Penny

Our Thoughts and Prayers are with:

Roger McBride and family and the family of Joe Underwood
Mike Carman and family and the family of C.W. Carman
Dalton Cruz and family and Gloria Cruz-Spence and family
and the family of Richard Humphreys
Ann Williams and family and the family of Van Williams

Falling Leaves

The fall makes me a bit melancholy; it reminds me of a visit with my brother, Gary and his wife Anne a few years ago at our farm. Anne and I took a picture and the maple trees in the background were spectacular. Every year I look forward to seeing them turn the vibrant colors of fall; orange, red, gold and all of the hues in between and remember our visit. Miles may separate my family and me, but the memories I have with them bring them home to me again and again.

With all the beauty fall has to offer, it's easy to forget how many problems all of those leaves can cause when they fall; outside of being a lot of work to rake up, they can cause major drainage problems to residents and city employees.

The most efficient method of leaf collection is to bag your leaves. If you choose to bag them, limit the weight of the bags to 50 pounds or less and put them on the curb on your regular garbage collection day.

Loose leaves guidelines to follow:

1. If you choose to rake them or blow them remember to keep them **BEHIND** the curb and also do not rake them into ditches. Putting leaves in the gutter or in drainage ditches can cause drainage and /or traffic problems and is considered illegal dumping.

2. Do **NOT** mix sticks, rocks, limbs or other debris with loose leaves.

3. Do **NOT** park cars too close to leaf piles; this could prevent collection and also cause a fire hazard.

4. The leaf vacuum runs from the east side of town to the west and then starts over. We will strive to pick your leaves up as soon as possible. You may call Public Works at 288-7630 when your leaves are raked and we will add them to our schedule for pick up at our first opportunity.

The Street Dept. will continue to vacuum loose leaves until January 29, 2010.

Leaves removed from curb

Dyersburg Fire Prevention Bureau

The Dyersburg Fire Department and the Home Safety Council ask that you stay safety minded this holiday season.

'Tis the season for families to begin decorating their homes for the holidays. Families are urged to keep safety top priority when hanging the holly and mistletoe this year. While home injuries are a year-round concern, many popular decorating traditions such as hanging holiday lights and lighting candles bring increased home injury risks.

According to the U.S. Consumer Product Safety Commission, each year hospital emergency rooms treat nearly 12,800 people for injuries related to holiday decorating, including falls and electrical shocks. Before getting out holiday candles and lights or reaching for a ladder to decorate this year, consider the following tips from Home Safety Council and the Dyersburg Fire Department.

Candle Safety — While candles provide a warm and festive atmosphere, research shows home fires caused by candles peak during the holiday season, with the highest number of candle fires occurring on Christmas Day, followed by New Year's Day and Christmas Eve.

Tips:

- Do not permit children to keep or use candles or incense in their rooms. A **responsible adult** should always attend open flames.
- Never use lighted candles on or near a Christmas tree or other evergreens.
- Keep candles at least three feet away from anything that can burn, including other decorations and wrapping paper.
- Always use stable, nonflammable candle holders with a hurricane glass to protect the open flame. An approved melting device is best.
- Place candles where they will not be knocked down or blown over and out of reach of pets and young children.
- If you have children in your home, store candles, matches and lighters out of their sight and reach in a locked cabinet.

To eliminate the risk of an open candle flame, use battery-powered flameless candles whenever possible, especially when you combine candles with greenery or other decorations.

Holiday Electrical Safety — Holiday lights and electrical decorations create holiday cheer both inside and outside the home, but they can also create fire hazards and electrical shock risks if they are not handled properly. Electrical safety tips:

- Inspect holiday lights and extension cords before decorating. Replace any that are fraying or damaged. Pay special attention to lights, cords or decorations that may have been damaged from winter weather conditions.
- Check for red or green UL marks on all light strings and extension cords. The green holographic UL Mark means the light strings should be used only indoors. The red holographic UL Mark indicates the light strings can be used both inside and out -- and can withstand conditions related to outdoor use.
- Follow manufacturer's guidelines for stringing light sets together. As a general rule, UL recommends using no more than **three** standard-size sets of lights together.
- Do not overload extension cords or electrical receptacles.
- **Unplug** all holiday lights when you go to sleep or leave home.
- Plug outdoor decorations into outlets protected by Ground Fault Circuit Interrupters (GFCIs) to prevent shock.
- Automatic lighting timers can be used to ensure that lights are not left on. These are available for both indoor and outdoor use.
- Roll up excess electrical cords and keep them away from high traffic areas. Do not run electrical cords under rugs.
- **Never keep an extension cord plugged in when it is not in use.**
- When replacing a light bulb, be sure to use the correct bulb size (wattage) that is right for the fixture.

Use safety caps to keep children from putting things into electrical receptacles outlets.

Ladder Safety — Falls are by far the leading cause of home injury fatalities. The safest way to climb indoors and out is to use a safe and sturdy ladder. Follow the ladder safety tips:

- Always use a sturdy ladder when climbing; it's too risky to climb on a chair.
- Before using a ladder outdoors, choose a location that is well away from all power lines. Coming in contact with live wires can be fatal.
- Use the 4-to-1 rule for extension ladders: for each 4 feet of distance between the ground and the upper point of contact (such as the wall or roof), move the base of the ladder out 1 foot.
- Always face the ladder when climbing and wear slip-resistant shoes, such as those with rubber soles.
- Keep your body centered on the ladder and gauge your safety by your belt buckle. If your buckle passes beyond the ladder rail, you are overreaching and at risk for falling.
- Make sure rungs are dry before using the ladder.
- Stand at or below the highest safe standing level on a ladder. For a stepladder, the safe standing level is the second rung from the top, and for an extension ladder, it's the fourth rung from the top.

Dyersburg

Police

DPD SAFETY

Teen Drivers

TEENAGE DRIVERS

Most novice drivers crash within the first 10 months of receiving their license. The best way to reduce this likelihood is to gradually phase in driving privileges, so the novice can develop confidence through supervised experience until safely passing this window of danger.

TEENS DIE : KNOW WHY !

Car crashes are the leading killer of 15 - 20 year olds. Teens crash more because: they are inexperienced drivers; are immature; have less understanding of danger; take more risks; experiment with drugs and alcohol; and pattern their behavior for social acceptance and conformity. Teens are less apt to wear safety belts than children and adults and are more apt to speed. In a crash, they are usually at fault. They suffer higher fatality rates when driving with their peers.

Truck overturns on freeway.

Victim' s Vehicle: 2 dead - wrong way

Personalized license plate on his torched V W was '2ND BUG'. Victim: 19 year old male.

Prevent Swine Flu - Good Advice

The only portals of entry are the nostrils and mouth/throat. In a global epidemic of this nature, it's almost impossible to avoid coming into contact with H1N1 in spite of all precautions. Contact with H1N1 is not so much of a problem as proliferation is.

While you are still healthy and not showing any symptoms of H1N1 infection, in order to prevent proliferation, aggravation of symptoms and development of secondary infections, some very simple steps, not fully highlighted in most official communications, can be practiced (instead of focusing on how to stock N95 or Tamiflu):

1. Frequent hand-washing (well highlighted in all official communications).
2. "Hands-off-the-face" approach. Resist all temptations to touch any part of face (unless you want to eat, bathe or slap).
3. *Gargle twice a day with warm salt water (use Listerine if you don't trust salt). *H1N1 takes 2-3 days after initial infection in the throat/nasal cavity to proliferate and show characteristic symptoms. Simple gargling prevents proliferation. In a way, gargling with salt water has the same effect on a healthy individual that Tamiflu has on an infected one. Don't underestimate this simple, inexpensive and powerful preventative method.
4. Similar to 3 above, *clean your nostrils at least once every day with warm salt water. *Not everybody may be good at Jala Neti or Sutra Neti (very good Yoga asanas to clean nasal cavities), but *blowing the nose hard once a day and swabbing both nostrils with cotton buds dipped in warm salt water is very effective in bringing down viral population.*
5. *Boost your natural immunity with foods that are rich in Vitamin C (Amla and other citrus fruits). *If you have to supplement with Vitamin C tablets, make sure that it also has Zinc to boost absorption.
6. *Drink as much of warm liquids (tea, coffee, etc) as you can. *Drinking warm liquids has the same effect as gargling, but in the reverse direction. They wash off proliferating viruses from the throat into the stomach where they cannot survive, proliferate or do any harm.

The 2nd scheduled Bruce Community Monthly Fellowship was held on November 12, 2009 and was a great success with approximately 65 adults and children in attendance. Next fellowship will be held on Thursday, December 10, 2009. For more information call Bruce Community Center at 731-286-7624

Mayor John Holden
P.O. Box 1358
Dyersburg, TN 38025-1358

Dear Mayor Holden

On behalf of the Dyersburg Civitan Club I wish to thank Mike Morgan and the members of the Dyersburg City Gas Department for their support of the Forest of Dreams Irrigation project. With their help in doing all the trench work we were able to install the 1300 ft irrigation system for the site as planned and within budget.

The Forest of Dreams is a significant and poignant endeavor started by the Dream Factory Dyersburg and it is now even more so because of the involvement of the Gas Department and Civitan volunteers who have ensured its on-going viability by installing the irrigation system.

Civitanians are dedicated, hardworking men and women serving the needs of our community in a variety of ways and are truly blessed and uplifted when others in the community work with us in pursuit of our mission of "Building Good Citizens".

Thanks again to all the Dyersburg City Gas Department members who helped us complete this worthwhile project.

Respectfully Yours,

Russell Maher Jr.

Russell Maher Jr.

Toys can be dropped off at
Triple T Tire
Hwy. 51 By-Pass
Dyersburg, TN 38024

Home for the Holidays

Celebrate the holidays with family and friends as Dyersburg State Community College hosts the annual Home for the Holidays concert presented by the Memphis Symphony Orchestra on Friday, December 4.

Alastair Willis, a candidate for Music Director for the Memphis Symphony Orchestra, will conduct. Born in Acton, Massachusetts, Willis received his Bachelor's degree with honors from England's Bristol University and continued his studies at Kingston University, where he earned a postgraduate Certificate of Education degree. He has appeared with many of the major American orchestras, including the New York Philharmonic, the San Francisco Symphony, the Chicago Symphony, the St. Louis Symphony, the Detroit Symphony, the Indianapolis Symphony, the Philadelphia Orchestra and the Nashville Symphony.

Broadway singing sensation Lisa Vroman will be guest soloist for the evening. Vroman starred for several years as Christine Daae in *The Phantom of the Opera*. As Christine, she garnered Theatre Critic's awards for the role in a record breaking run in San Francisco, and did a return engagement at the Ahmanson Theatre in Los Angeles. Vroman is a George London Competition Grant recipient and a 1999 Minerva award recipient from Potsdam State University. She received an Undergraduate degree in Music Education from the Crane School of Music, State University of New York at Potsdam, and a Master of Fine Arts at Carnegie Mellon University in Pittsburgh, Pennsylvania. She will perform *Sweet Little Jesus Boy* and *Go Tell It on the Mountain* among other traditional favorites.

To complete the full program of holiday classics, the Memphis Symphony Orchestra Chorus and the University of Memphis Singers, under the direction of Dr. Lawrence Edwards, will join the Symphony. The concert will conclude with the traditional holiday sing-a-long.

The concert will begin at 7:30 P.M. in the E. H. Lannom, Jr. Gymnasium. Tickets are now available for purchase at the Business Office in the Eller Building of the Dyersburg campus. Ticket costs are \$35 for priority seating, \$15 for adults and \$5 for students. They will also be available for purchase at the door the evening of the performance.

The City of Dyersburg is gearing up to publicly launch 311 for residents. The intent of 311 is to make it easy for the public to initiate requests for local government services. Dyersburg became the 4th city and the first non-metropolitan area in Tennessee to implement the 311 number and this will be the biggest city operational change since the implementation of computers.

Departmental Representatives have been working together with EOC Manager Mark Grant to prepare "knowledge based" informational articles making it easy to give or get information or city services online or by phone when by calling 311. On November 19th an "advertising" team was established to create a logo and media blitz program.

Improving customer relations and simplifying requests for city services coming soon!

Spectacular Event For The Entire Family, You Don't Want To Miss!

OPERATION CHRISTMAS CHILD

“A simple gift...and the powerful word of God.”

As the holidays draw near our children will watch for Santa, try to behave and dream of the Christmas presents they hope to get. And as the holidays draw near, many children in less fortunate circumstances will only hope to have a gift. Many don't even have hope.

Thanks to the generosity of community members and the kindness people just like you, many children will receive a Christmas gift and know the love of Jesus through Samaritans Purse and Operation Christmas Child.

Since 2001, Harvest Baptist Church has embraced this ministry and rallied the community to give to children around the world who have little to nothing; through no fault of their own. Harvest Baptist Church would like to thank all who filled a shoe box for a child. Mona Ozment, sister of Pam Pleasant (GIS) and Linda Webb (CH), reports that this year 3,724 boxes were collected. The record number in previous years was 2,566 boxes, with the collection being approximately 1,100 the first year.

“Only God knows the difference that you and your shoebox will make in that child, her/his family and even the community that your shoe box will reach. Many lives will be touched and many will come to know the saving grace of our mighty Father...Jesus. So as you can see there's so much more than a simple thank you for this. We will never know the impact we have made thru this shoebox until we get to Heaven...and see the many who were saved thru this awesome ministry.” wrote Ozment. Prayer is still the important ingredient in this process. Pray that each child gets the shoe box that God has designed for them and their circumstance.

The shoeboxes will be arriving at 7 different processing centers across the U.S. to be processed and be sent to over 120 countries around the world. In those countries, evangelic materials will be put with each box and the gospel will be given to over 8 million children.

If you would like to know more about Samaritan's Purse and Operation Christmas Child you may go to www.samaritanspurse.com. There you will find details and life stories on how the boxes of basic gifts and the Word of God touch peoples lives. If you choose to participate next year, get started now, buy an extra bar of soap, toothbrush and toothpaste, small toy for a boy or girl, perhaps a book, crayons, paper and pencil. Watch for clearance specials throughout the year and help make a child happy and show them that they are loved...that ALL of God's children are loved.

A cheerful send off of gifts and blessings to children around the world.

Loaded up and ready to go!

Shoeboxes filled with gifts and a message for children around the world.
