Your New and Rewarding Career Begins Here

join the unseen heroes who are a member of the thin gold line

“An Equal Opportunity Employer”

We consider applicants for all positions without regard to race, color, religion, creed, gender, national origin, age, disability, marital or veteran status, sexual orientation, or any other legally protected status.
What is "The Gold Line"?

The Thin Gold Line is a representation of a 911 dispatcher, 911 telecommunicator or 911 operator. As the American flag represents the United States of America the Thin Gold Line is a rendition of a 911 dispatcher or call taker.

The 911 Profession is the “first” contact the public has with emergency response system. It is not an easy job. Not everyone can meet our standards.

**Do you have what it takes?** If so, then it all begins here with the application process.
CITY OF DYERSBURG
BENEFITS PLAN DYERSBURG 911 CENTER

- Annual base salary $30,543 to $38,506 DOE
- Plus a minimum of 45.5 annual hours overtime pay for “Roll Call” before the start of your tour of duty

Employment Application Procedures

HOW DO I APPLY

When a need for a new employment register has been established, the process will be open to the public to apply. Notice is provided through the City of Dyersburg web site and the City of Dyersburg social media accounts.

To apply for a position, you must complete an on line electronic application; hard copy (paper) applications are not accepted.

If you have any questions, please call 731.285.4019 and ask to speak to someone regarding the employment process.

You are required to complete all data fields. You must also have a valid residential address and a valid e-mail address. All correspondence are conducted through e-mail. Please ensure that the @dyersburgtn.gov is whitelisted and not marked as spam in your email.

E-mail address: 911jobs@dyersburgtn.gov

MINIMUM REQUIREMENTS YOU MUST MEET IN ORDER FOR YOUR APPLICATION TO BE ACCEPTED

- Have a high school diploma or G.E.D. equivalent
- Not have been convicted of or pleaded guilty to or entered a plea of nolo-contendere to any felony charge or to any violation of any federal or state laws or city ordinances relating to force, violence, theft, dishonesty, gambling, liquor or controlled substances
- Must be 18 years of age and a citizen of the United States
- Meet the minimum standards on all test and evaluations
- Not have been discharged from military service with less than an honorable or medical discharge

WHAT YOU NEED TO KNOW ABOUT THIS JOB

- Have regular and predictable attendance
- Arrive for work no later than the prescribed time
- Required to work various shifts/days in a 24X7 environment
- Be prepared to obtain childcare or special needs care on a regular basis, as needed.
- Work overtime
- Have reliable transportation that functions in the 24 hr environment

THE SELECTION PROCESS

Step 1: Submit Your Application On Line
Your application shall be reviewed for completeness. Applications which are incomplete or who do not meet entrance requirements shall be rejected. You will be contacted if your application has been rejected. Accepted applications will be scheduled for a test.

**Step 2: Testing**

The applicant will challenge a test which evaluates the skill sets required for the job.

> Prior to taking the evaluation the applicant should be able to keyboard at least 2982 keystrokes per hour and should have basic user knowledge on how to operate a personal computer that has a Windows operating system.

The active register is established from the top ten scores during a testing period. If you do not make the register, then your application is removed and destroyed. Notification is provided to those who may make the top ten. No notification means you did not make the register.

Prior Employees of Dyersburg 911 who have acceptable test results on file and who meet the entrance requirements may be employed directly, if so desired. Their names shall be included on the current register.

**Step 3: Oral Interview**

The top ten will be scheduled for an oral interview. After completion of the oral interview, applicants will be evaluated to determine the best candidate for employment. Applicants selected for employment shall proceed to Step 4.

**Step 4: Conditional Offer**

After a conditional offer of employment has been extended, the prospective employee must complete the following prior to being employed:

- Pass a chemical substance abuse screen
- Psychological/medical evaluation
- Complete a detailed background investigation

Applicants who test positive for chemical/substances (without a legal prescription) will not be considered for employment.

The medical and or psychological evaluation must reflect the ability to perform the essential functions of the job, with or without reasonable accommodation.

The applicant does reserve the right to seek a second opinion for any medical/psychological test/evaluation, at his or her expense. The Dyersburg 911 Communications Center reserves the right to remove any person from employment consideration if at any time during screening process any information is received or uncovered that indicates the candidate misleads or provided false information in their application or is an undesirable employee.

Persons selected for employment will be placed on probation for 6 months. The employee must successfully
complete all minimum training standards and evaluations in order to complete probation.

**APPEAL PROCESS**

Applicants have limited appeal rights, since employment is not guaranteed. The applicant has a right to appeal to the Human Resource Director if one of more of the following conditions is present:

- Adverse decisions concerning eligibility
- Review of written results of scored elements of the selection process or any information contained in the application
- Belief that a discriminatory practice or action was exercised against applicant

The applicant must inform the HR Director of a request for an appeal within 7 calendar days of applicant notification as to test results or eligibility requirements. The request must be reduced to writing.

The applicant must give written notice to the Human Resource Director containing the following facts:

- Basis for the allegation
- Listing of any evidence or proofs to support allegation
- Dates, names of persons or any other information that may be used

The HR Director will give written response within 15 calendar days of receipt of the appeal, regarding his or her findings to both the Department Head and the complainant.

If the complainant is not satisfied with the disposition, then the complainant may file a complaint with the State EEOC.

**CLOSING A REGISTER**

The register will be closed when the Department Head determines there are no longer any desirable candidates for consideration. Applications from a closed register will be destroyed. No notification is provided.

**EQUAL EMPLOYMENT OPPORTUNITY**

It is the City’s policy not to discriminate against person based on that person’s race, creed, color, sex, religion, age (over 40), national origin, veteran status, physical or mental disabilities, or any other prohibited basis under federal or state law.
Public Safety Communications
Pre-Employment Test Preparation Guide

The computerized CritiCall pre-employment test used by this agency measures underlying skills and abilities a person needs to possess prior to any training they might receive if they are hired as a public-safety dispatcher and/or calltaker, including the ability to effectively navigate and use a computer. Because of this, a test taker does not need to possess any specialized dispatcher/calltaker knowledge or training to be able to read, understand, or answer the test items. The following information is designed to help a future test taker to prepare for the CritiCall testing process.

General Notes

- Be sure to follow all of the instructions provided during the test.

- Practice test items are offered before each section of the test to help you understand how you should respond during that section. Scores from the practice items are not included in your final test score. You are not required to take the practice items and you will be given an opportunity to bypass them during the test if you wish.

- During the test you will likely be required to listen to spoken information heard over a headset and then must use that information to answer questions or input data. You will also likely have the ability to adjust the volume of the information you hear over the headset.

- Many test takers find it helpful to have the computer's keyboard “Num Lock” (number lock) function turned “on” when taking the test.

- Do not be surprised when the computer allows you to enter information during many parts of the test using only UPPER case letters. This mimics computerized dispatcher systems, which also limit a dispatcher to enter information in only UPPER case letters.

- You will be penalized if you skip any questions during the test (unless you are informed otherwise during the instructions for that portion of the test.).

- You may need to use “scroll bars” that might appear on the right side of the computer screen during testing so that you can view those parts of the screen that might be hidden.
• At some points during the test you may need to select the correct response by clicking your mouse on a box to the left of your choice, or by pressing the A, B, C, or D key on the keyboard.

A “check mark” indicates your choice during multiple-choice questions. In this example, the check mark next to alternative B (“Green”) was placed by either moving the pointer over the small box to the left of the letter B and clicking once, or by entering the letter B on the keyboard. You can change your response as many times as you wish before you move on to the next test item by either clicking on a different box or by entering a different letter.

Decision rules to be followed during testing

One of the important abilities needed by a public safety communication’s employee is the ability to make decisions based upon structured rules. During the test, you will be asked to quickly and accurately indicate which type of agency (i.e., Police, Fire, Emergency Medical Service, or Public Utility Company) should be dispatched to the scene of an incident according to the rules listed below.

You should read and learn these four rules before taking the test. Experience has shown that the better an applicant knows these rules, the better they will perform during the decision-making portions of the test.

• Police
  Police Department should be dispatched when someone is attempting or threatening to physically harm another person, or has actually physically harmed another person, or when a person causes or is in the process of causing harm to another person’s property.

• Fire
  Fire Department should be dispatched when there are the immediate signs of a fire in progress (such as flames or smoke), when a fire alarm is sounded, or when a person who is trapped or confined needs to be rescued or released.

• EMS
  Emergency Medical Service should be dispatched when there is an emergency medical condition requiring intervention by medically trained personnel.

CONTINUED ON NEXT PAGE!
• **Utility**  
  Public Utility should be dispatched when there is a problem associated with malfunctioning or broken public water systems, electric power systems (including, but not limited to, electrical power lines, streetlights, and traffic signals), natural gas systems used for home heating, or blocked sewer drainpipes.

**Examples:**

Based upon the decision rules shown above, if you were given the scenarios of:

- "Man is throwing rocks in an attempt to hurt children,” you should select POLICE as the correct response since the man was attempting to physically harm another person.
- “Electrical power lines knocked down during a severe hail storm,” you should select UTILITY as the correct response because there is a problem with broken or malfunctioning electrical power lines.

Please note that sometimes you will be asked to respond to emergency-message test items while performing other tasks on the computer. For this reason you will need to be reasonably proficient at navigating and using a computer in order to perform both tasks as the same time.

To make your selection as to which of the four types of agencies should be dispatched in response to the “emergency response” messages that will appear on the screen during the test you will be required to:

- Move the computer’s cursor over one of the four symbols (indicating Police, Fire, EMS, or Utility Company) (an example of the four symbols as they appear during the test is shown to the right) and left-click the mouse once to make your choice. (The example to the right has the cursor placed over the “Fire” symbol).

Note: Throughout the test you should use only single clicks of the left mouse button.

- You will have only **15 seconds** to respond to each of the “emergency messages” that appear on the screen during the test. Credit will not be given if an incorrect agency is dispatched or if your response is not made within the 15 seconds after the emergency message first appears.

**Entering information into the correct “fields” during the test**

Communication Center employees must be able to accurately enter information they hear into the correct fields on the computer. The figure below shows the location of the fields that will appear on the computer screen during the test.
You can move from field to field by using the computer’s mouse. Simply left-click the cursor in the field you wish to enter information into.

You can also press the Tab key or the down-arrow (↓) key to move the cursor to the appropriate field. The Shift + Tab keys or the up-arrow (↑) key moves the cursor in the opposite direction. Note that the side-to-side arrow keys (← →) on the keyboard will not move the cursor during the CritiCall test.

Note: The cursor always begins in the “Last Name” field whenever a new set of empty fields appears on the screen. The sequence the cursor moves as you press the Tab key or down-arrow (↓) key is as follows: Last Name; First Name; Telephone; Address; City; Zip; Vehicle Identification Number; License Plate; Driver's License (where it stops). The cursor will NOT move if you press the Tab key or down-arrow (↓) key while the cursor is in the Driver's License field.

Finally, you can also move to a specific field by pressing the letter key that is underlined on the screen for that field (such as L in Last Name) while simultaneously pressing down the Alt key. For example, if you press down on the C key and the Alt key at the same time, your cursor will move directly to the City field. (See below for all of the field shortcuts).

<table>
<thead>
<tr>
<th>Alt + L = Last Name</th>
<th>Alt + Z = Zip or Postal Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alt + F = First Name</td>
<td>Alt + V = Vehicle Identification Number (also called a VIN)</td>
</tr>
<tr>
<td>Alt + T = Telephone</td>
<td>Alt + P = License Plate</td>
</tr>
<tr>
<td>Alt + A = Address</td>
<td>Alt + D = Driver’s License</td>
</tr>
<tr>
<td>Alt + C = City</td>
<td></td>
</tr>
</tbody>
</table>

Other Skills and Abilities That May be Measured During the Test

The following is a list of some of the abilities that may be measured during the test.

- Follow rules and directions.
- Make decisions quickly and accurately based on rules you are provided.
- Enter data or information (such as names, telephone numbers, license plate sequences, etc.) you read and hear into a computer using a keyboard.
- Hear, comprehend, summarize, and/or answer questions about information told verbally in short story form.
- Identify written information provided on lists (such as finding a name on a list from an alphabetically-sequenced telephone book).
- Recognize if bits of information, such as addresses or names, are similar or different.
• Quickly learn and later recognize information that is shown in writing, such as descriptions (e.g., red car, blue boat, green shirt).

• Hear and remember pieces of information, such as telephone numbers or license plate numbers, for a very short period of time.

• Determine routes and/or locations using very basic maps. (No prior map-reading training or experience is required to correctly respond to these questions. However, candidates should know and be able to follow simple directions, such as "left" and "right.")

• Correctly spell commonly-used words which sound alike that might delay badly-needed assistance if misspelled (e.g., patience instead of patients).

• Communicate using sentences or phrases that clearly express the intended meaning.

• Read and comprehend written passages.

**Test Preparation Hints**

The following are some hints that may help you to prepare for the testing process.

✓ Practice moving your computer’s mouse around the screen and left-clicking your mouse on specific targets. Keep in mind that during the test you will be required to only single-click the left mouse button each time you wish to indicate your choice.

✓ Read names, addresses, and telephone numbers and enter those into a computer using a keyboard. Build up your speed and accuracy to be able to achieve a higher score during testing.

✓ Have someone slowly read names, addresses, and telephone numbers to you while you enter those into a computer using a keyboard. Build up your speed and accuracy to be able to achieve a higher score during testing.

✓ Have someone slowly read a seven-digit telephone number to you (e.g., 555-1234; "five-five-five-one-two-one-zero"). As soon as they have finished reading the telephone number, enter that telephone number (without a hyphen) from memory into a computer using a keyboard. Continue, listening and entering one set after another with approximately five seconds in-between each set of telephone numbers. Continue until you are very accurate.

✓ Learn the set of Decision Rules provided earlier in this Guide.

✓ Dispatchers must be able to read and write clearly. It may be helpful for you to practice your reading and writing skill to enhance your level of skill.

✓ Practice giving instructions from a very simple map. For example, using the terms "left" and "right," as well as at "North," "East," "South," and "West" (as shown in the legend
below), describe the quickest route from Point A to Point B on this map. You can make up additional maps to practice at http://maps.google.com/maps.

✓ Have someone read and spell a person's first and last name from a telephone book and then you find the address associated with that name. Enter the address into a computer using a keyboard exactly as written in the book. Practice one name at a time until you develop a high degree of proficiency at locating and correctly entering the information.

   Good Luck!
